

Groupe BPCE

Update

Key Rating Drivers

Strong, Diversified Company Profile: Groupe BPCE's (GBPCE) ratings reflect a strong franchise and diversified business model, strong capitalisation and a focus on generally low-risk businesses. The ratings also reflect asset quality and profitability that are weaker than at most 'A+' rated peers. They further factor in Fitch Ratings' expectation that one-off transformation costs related to the group's 2021-2024 strategic plan and weaker cost efficiency than at many peers will put pressure on GBPCE's profitability in the short term.

Cooperative Structure: GBPCE is a cooperative banking group bound by a mutual-support mechanism comprising its 14 Banques Populaires (BPs), 15 Caisses d'Epargne et de Prevoyance (CEPs), its central body BPCE S.A., and many affiliates, the largest of which are Natixis, Credit Foncier de France (CFF) and Banque Palatine. The group publishes consolidated accounts and affiliated entities share a common strategy and central risk management functions. Fitch consequently has the same Issuer Default Ratings (IDRs) for all these entities.

Large French Banking Group: GBPCE mainly operates in France, where it is the second-largest domestic retail and commercial bank. The group primarily operates through the two large networks of the BPs and the CEPs and has a universal bancassurance business model. Its subsidiary Natixis is a niche corporate and investment bank (CIB), but has significant global asset-management operations.

Strong Capitalisation: Capitalisation is strong and underpins the group's ratings. The common equity Tier 1 (CET1) ratio was 15.8% at end-2021, a level already in line with the medium-term target of above 15.5%. GBPCE has established a long record of maintaining capital well above requirements and we expect further capital accretion over the medium term.

Moderate Risks to Asset Quality: GBPCE's impaired loans ratio is higher than that of similarly rated European banks, but broadly in line with other French cooperative banks following material improvements before the pandemic. The impaired loans ratio remained below 3% in 2021 and we expect a slight increase above 3% by end-2022. Fitch believes asset-quality risks are mitigated by effective state-support measures to the private sector in France and GBPCE's adequate loan loss allowance coverage of impaired loans.

Downside Risks to Profitability: GBPCE's profitability has been stable but moderate relative to that of European peers, in part due to a low risk appetite but also weaker cost efficiency and tighter net interest margins. GBPCE's 2022 performance could suffer from revenue challenges and its structurally high cost/income ratios in comparison with peers following a strong rebound in 2021. However, we expect the bank will continue to focus on implementing its cost savings plan to reduce its performance gap with peers over the medium term.

Diversified Funding Sources: GBPCE benefits from the strong deposit franchise of its regional banks in France. However, its loans/deposits ratio remains higher than that of large French peers, as Natixis and CFF, GBPCE's two largest subsidiaries, are mostly wholesale funded. GBPCE's market funding is diversified by instrument, currency and investor base.

Rating Sensitivities

Weaker Profitability and Asset Quality: We would be likely to downgrade GBPCE if we no longer saw a medium-term path for the group to improve its operating profit/risk-weighted assets (RWAs) to close to 1.5%. The ratings would also come under pressure if we expected the impaired loans ratio to rise above 4%.

Sustained Earnings Improvement: The Outlook could be revised to Stable if there were sustained improvements in earnings with an operating profit/RWAs close to 1.5%.

BPCE publishes consolidated accounts and the entities affiliated to BPCE S.A. share a common strategy and coordinated marketing activities. Risk management is also centralised. We consequently assign group ratings and have the same IDRs for the entities in the above table and the 14 BPs and 15 CEPs.

Banque Palatine S.A.	
Senior preferred	A+/F1
Credit Cooperatif^a	
Senior preferred	A+/F1

^a Credit Cooperatif is a Banque Populaire
 Source: Fitch Ratings

Fitch rates the senior preferred debt of BPCE's group entities in line with their IDRs. This is because we expect BPCE to use senior preferred debt to meet its minimum requirement for own funds and eligible liabilities over the medium term, and buffers of subordinated and senior non-preferred debt are unlikely to exceed 10% of RWAs on a sustained basis.

Senior non-preferred notes issued by BPCE S.A. are rated 'A' or one notch below the central body's Long-Term IDR. This is to reflect the risk of below-average recoveries on these instruments in a resolution.

BPCE S.A. and Natixis's subordinated Tier 2 debt ratings are rated two notches below BPCE's Viability Rating (VR) for loss severity as we expect recoveries to be poor for this type of debt in the event of a default or non-performance by the bank.

Significant Changes

Strong Rebound in Operating Performance in 2021

GBPCE's good performance in 4Q21 concludes a year of strong rebound from a comparatively weak 2020. Operating profit/RWAs was slightly above 1.5% in 2021, when excluding restructuring costs. This level of profitability still lags behind large European peers despite being better than throughout 2017-2020. Maintaining or improving its operating profit beyond this level is key to GBPCE's ratings. The improved profitability in 2021 mainly came from record revenue at EUR25.7 billion, which was even above GBPCE's 2024 target. GBPCE's key businesses grew their revenue at a moderate to strong pace in 4Q21 and 2021.

A strong revenue growth in excess of costs and a material decline in loan impairment charges also positively contributed to the group's performance. GBPCE's asset quality remains satisfactory and benefited from a sale of impaired loans in 4Q21. Direct banking exposures to Russia and Ukraine are moderate and below EUR1 billion net of guarantees, and present limited risks to GBPCE's asset quality.

Fitch believes GBPCE will not repeat the same level of revenue in 2022. The group estimates that the end of the bonification period (with an up to -1% rate) for its TLTRO drawings in June 2022 and the higher interest rate on French regulated savings will affect its revenue by as much as EUR600 million. We also expect Natixis' revenue in CIB and asset management to level off in 2022, while other businesses will have to deliver on their ambitious growth plans.

As a result of the weaker revenue outlook for 2022, the group will have to intensify cost-efficiency measures to continue improving its weak cost/income ratio towards its 2024 target of 65%. Cost/income was still 69% in 2021 (below 68% when adjusted for regulatory levies), although this is better than the four-year average of about 73%. Further improvements will be gradual and will mainly result from the group's ongoing simplification and revenue growth in excess of costs.

GBPCE has ample headroom relative to its updated total capital requirement, with a high CET1 ratio of 15.8%. The latter increased by 25bp as GBPCE's Pillar 2 requirement was set at a higher level, reflecting the weak 2020 performance and structural weaknesses that the group has been addressing.

No Reliance on Sovereign Support

BPCE's Support Rating of '5' and Support Rating Floor of 'No Floor' reflect Fitch's view that, although possible, sovereign support cannot be relied on. Legislative, regulatory and policy initiatives (including the implementation of the EU's Bank Recovery and Resolution Directive) have substantially reduced the likelihood of sovereign support for EU commercial banks in general, implying that senior creditors would probably be required to participate in losses, if necessary, instead or ahead of the bank receiving sovereign support, despite BPCE's systemic importance.

Credit-Relevant ESG Derivation

Groupe BPCE has 5 ESG potential rating drivers

- ➔ Groupe BPCE has exposure to compliance risks including fair lending practices, mis-selling, repossession/foreclosure practices, consumer data protection (data security) but this has very low impact on the rating.
- ➔ Governance is minimally relevant to the rating and is not currently a driver.

How to Read This Page

ESG scores range from 1 to 5 based on a 15-level color gradation. Red (5) is most relevant and green (1) is least relevant.

The Environmental (E), Social (S) and Governance (G) tables break out the individual components of the scale. The right-hand box shows the aggregate E, S, or G score. General Issues are relevant across all markets with Sector-Specific Issues unique to a particular industry group. Scores are assigned to each sector-specific issue. These scores signify the credit-relevance of the sector-specific issues to the issuing entity's overall credit rating. The Reference box highlights the factor(s) within which the corresponding ESG issues are captured in Fitch's credit analysis.

The Credit-Relevant ESG Derivation table shows the overall ESG score. This score signifies the credit relevance of combined E, S and G issues to the entity's credit rating. The three columns to the left of the overall ESG score summarize the issuing entity's sub-component ESG scores. The box on the far left identifies some of the main ESG issues that are drivers or potential drivers of the issuing entity's credit rating (corresponding with scores of 3, 4 or 5) and provides a brief explanation for the score.

Classification of ESG issues has been developed from Fitch's sector ratings criteria. The General Issues and Sector-Specific Issues draw on the classification standards published by the United Nations Principles for Responsible Investing (PRI) and the Sustainability Accounting Standards Board (SASB).

Sector references in the scale definitions below refer to Sector as displayed in the Sector Details box on page 1 of the navigator.

Social (S)

General Issues	S Score	Sector-Specific Issues	Reference
Human Rights, Community Relations, Access & Affordability	2	Services for underbanked and underserved communities; SME and community development programs; financial literacy programs	Company Profile; Management & Strategy; Risk Appetite
Customer Welfare - Fair Messaging, Privacy & Data Security	3	Compliance risks including fair lending practices, mis-selling, repossession/foreclosure practices, consumer data protection (data security)	Operating Environment; Company Profile; Management & Strategy; Risk Appetite
Labor Relations & Practices	2	Impact of labor negotiations, including board/employee compensation and composition	Company Profile; Management & Strategy
Employee Wellbeing	1	n.a.	n.a.
Exposure to Social Impacts	2	Shift in social or consumer preferences as a result of an institution's social positions, or social and/or political disapproval of core banking practices	Company Profile; Financial Profile

Governance (G)

General Issues	G Score	Sector-Specific Issues	Reference
Management Strategy	3	Operational implementation of strategy	Management & Strategy
Governance Structure	3	Board independence and effectiveness; ownership concentration; protection of creditor/stakeholder rights; legal/compliance risks; business continuity; key person risk; related party transactions	Management & Strategy; Earnings & Profitability; Capitalisation & Leverage
Group Structure	3	Organizational structure; appropriateness relative to business model; opacity; intra-group dynamics; ownership	Company Profile
Financial Transparency	3	Quality and frequency of financial reporting and auditing processes	Management & Strategy

CREDIT-RELEVANT ESG SCALE

How relevant are E, S and G issues to the overall credit rating?	
5	Highly relevant, a key rating driver that has a significant impact on the rating on an individual basis. Equivalent to "higher" relative importance within Navigator.
4	Relevant to rating, not a key rating driver but has an impact on the rating in combination with other factors. Equivalent to "moderate" relative importance within Navigator.
3	Minimally relevant to rating, either very low impact or actively managed in a way that results in no impact on the entity rating. Equivalent to "lower" relative importance within Navigator.
2	Irrelevant to the entity rating but relevant to the sector.
1	Irrelevant to the entity rating and irrelevant to the sector.

Unless otherwise disclosed in this section, the highest level of ESG credit relevance is a score of '3'. This means ESG issues are credit neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg.

The ratings above were solicited and assigned or maintained at the request of the rated entity/issuer or a related third party. Any exceptions follow below.

DISCLAIMER & DISCLOSURES

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers. Please read these limitations and disclaimers by following this link: <https://www.fitchratings.com/understandingcreditratings>. In addition, the following <https://www.fitchratings.com/rating-definitions-document> details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at <https://www.fitchratings.com/site/regulatory>. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors and underwriters for rating securities. Such fees generally vary from US\$ 1,000 to US\$ 750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$ 10,000 to US\$ 1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001.

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
