Healthcare - 3. Management of Proceeds

Tracking and allocation process*

Groupe BPCE will implement dedicated processes to ensure tracking and transparency.

The Committee (via the Portfolio Management & Financial Engineering function) ensures the adequate monitoring of the evolution of the Social Portfolio (including Healthcare assets) on a quarterly basis and that the issued amount remains significantly lower than the nominal of the social portfolio.

1. Social bond issuance done by BPCE or Natixis, ISIN tagged as social bond.
2. Treasury collects net proceeds in order to finance or refinance eligible social loans.
3. Introduction of a healthcare flag in treasury systems for eligible facilities and matched with the ISINs of Social Bond issuances.
4. Net proceeds are allocated to existing, ongoing or future eligible social loans.
5. The treasury department will proceed to intragroup loans equal to the issued amount from the main body to originating entities on a prorata basis of the eligible assets provided.

*Specific arrangements are set in case the issuer consists in a Special Purpose Vehicle or a Covered Bond.
## Healthcare - 4. Reporting
