APPENDIX
(this Appendix forms part of the Final Terms to which it is attached)

1. Formula

“CPTFEMU YoY” means, in respect of a Specified Interest Payment Date, a number determined by the Calculation Agent in accordance with the following formula (rounded at the eight decimal place):

CPTFEMU Ratio applicable to such Specified Interest Payment Date - 1.

“CPTFEMU” or “Index” means the Eurostat Eurozone HICP Ex Tobacco Unrevised Series NSA, measuring the rate of inflation in the Euro-Zone expressed as an index and published by the Index Sponsor on the Bloomberg Page “CPTFEMU” (or such other page as may replace that page, or such other information service as may be selected by the Calculation Agent, acting in its sole and absolute discretion for the purpose of displaying the Index).

“CPTFEMU Ratio” means a number determined by the Calculation Agent as equal to:

(CPTFEMU March [t] / CPTFEMU March [t - 1]),

Where:

- **t** is the year associated with the relevant Specified Interest Payment Date; and

- **CPTFEMU March [t]** means the level of the Index published by the Index Sponsor for March of year t and as determined by the Calculation Agent without regard to any subsequently published correction, subject to adjustment in accordance with paragraph 3 of the Appendix to these Final Terms below; and

- **CPTFEMU March [t - 1]** means the level of the Index published by the Index Sponsor for March of the year immediately preceding year t and as determined by the Calculation Agent, subject to adjustment in accordance with paragraph 3 of the Appendix to these Final Terms below.

For the avoidance of doubt, in respect of each scheduled Specified Interest Payment Date, the CPTFEMU Ratio in respect of such Specified Interest Payment Date is as follows:

<table>

<tr>

“Index Sponsor” means EUROSTAT (the statistical office of the European Communities in Luxembourg), or any successor to such index sponsor which is acceptable in the opinion of the Calculation Agent.

2. Calculation Agent

(a) The Issuer appoints Goldman Sachs International as the Calculation Agent for the purposes of these Final Terms.

(b) The Calculation Agent shall not act as agent or trustee of the Noteholders. All quotations, calculations and determinations given or made by the Calculation Agent in relation to the Notes shall (save in the case of manifest error) be final and binding on the Issuer, the Paying Agents and the Noteholders. None of the Issuer, the Paying Agents or the Calculation Agent shall have any responsibility to any person for any errors or omissions in (i) any calculation by the Calculation Agent of any amount due in respect of the Notes; or (ii) any determination made by the Calculation Agent.

3. Index Delay and Disruption Event

3.1 Change in base of the Index

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the “Rebased Index”) will be used for purposes of determining the level of the Index from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the Calculation Agent pursuant to the terms and conditions of the Fallback Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. If there is no Fallback Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.

3.2 Revision of the Index

For the purposes of the calculation of the level of the Index, the first publication of the Index (excluding any “flash” estimates) by Eurostat for a given month shall be final. For the avoidance of doubt, subject to paragraph 3.5 of this Appendix, any subsequent revision of any officially released Index by Eurostat shall be disregarded.

3.3 Delay in publication of the Index

(a) If any level of the Index for March of an Interest Period which is relevant to the calculation of the interest payable in respect of such Interest Period under the Notes (a “Relevant Level”) has not been published or announced by the relevant Interest Determination Date, the Calculation Agent shall determine a Substitute Index Level (in place of such Relevant Level) by using the following methodology:

(i) If applicable, the Calculation Agent will take the same action to determine the Substitute Index Level for the Affected Payment Date as that taken by the Calculation Agent pursuant to the terms and conditions of the Fallback Bond;

(ii) If (i) does not result in a Substitute Index Level for the Affected Payment Date for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:
Substitute Index Level = Base Level x (Latest Level / Reference Level)

Where:

“AFFECTED PAYMENT DATE” means each Specified Interest Payment Date in respect of which the Index has not been published or announced.

“BASE LEVEL” means the level of the Index (whether definitive or provisional, excluding any “flash” estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

“LATEST LEVEL” means the latest level of the Index (whether definitive or provisional, excluding any “flash” estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Index Level is being calculated.

“Fallback Bond” means a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Index relates and which pays a coupon or redemption amount which is calculated by reference to the Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond is redeemed the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

“REFERENCE LEVEL” means the level of the Index (whether definitive or provisional, excluding any “flash” estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in “Latest Level” above.

(b) If a Relevant Level is published or announced at any time after the Interest Determination Date prior to the next Specified Interest Payment Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this paragraph 3.2 of this Appendix, will be the definitive level for March in the relevant Interest Period.

3.4 CESSATION OF AND MATERIAL MODIFICATION TO THE INDEX

(a) Cessation of the Index: If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index then the Calculation Agent shall determine a Successor Index (in lieu of any previously applicable Index) for the purposes of the Notes by using the following methodology:

(i) If at any time, a successor index has been designated by the Calculation Agent pursuant to the terms and conditions of the Fallback Bond, such successor index shall be designated a "Successor Index" for the purposes of all subsequent Specified Interest Payment Dates in relation to the Notes, notwithstanding that any other Successor Index may previously have been determined under paragraph 3.3(b), (c) or (d) hereof; or
(ii) If a Successor Index has not been determined under (a) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Index will be superseded by a replacement Index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the Index for purposes of the Notes from the date that such replacement Index comes into effect; or

(iii) If a Successor Index has not been determined under (a) or (b) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same index, this index will be deemed the "Successor Index". If fewer than three responses are received, the Calculation Agent will proceed to subsection (d) hereof; or

(iv) If no Successor Index has been deemed under (a), (b) or (c) above by the Interest Determination Date prior to the next Affected Payment Date the Calculation Agent will determine an appropriate alternative index for such Affected Payment Date, and such index will be deemed a "Successor Index".

(v) If the Calculation Agent determines that there is no appropriate alternative index, the Notes will be redeemed at the Early Redemption Amount as contemplated in item 23 of Part A to these Final Terms.

(b) Material Modification: If, on or prior to the Interest Determination Date before a Specified Interest Payment Date, the Index Sponsor announces that it will make a material change to an Index then the Calculation Agent shall make any such adjustments to the Index consistent with adjustments made to the Fallback Bond, or, if there is no Fallback Bond, only those adjustments necessary for the modified Index to continue as the Index.

3.5 Manifest Error in Publication

If within five Business Days following the publication of the level of the Index by the Index Sponsor, if the Calculation Agent determines that the Index Sponsor has corrected the level of the Index to remedy a material error in its original publication, it will notify the Issuer and the Paying Agent of (i) that correction, and (ii) the amount that is payable as a result of that correction and (iii) take such other action as it may deem necessary to give effect to such correction.

4. Index Disclaimer

The Notes are not sponsored, endorsed, sold, or promoted by the Index or the Index Sponsor, and the Index Sponsor does not make any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the Index and/or the levels at which the Index stands at any particular time on any particular date or otherwise. None of the Index or Index Sponsor shall be liable (whether in negligence or otherwise) to any person for any error in the Index and the Index Sponsor is under no obligation to advise any person of any error therein. The Index Sponsor does not make any representation whatsoever, whether express or implied, as to the advisability of purchasing or assuming any liability to the other party for any act or failure to act by the Index Sponsor in connection with the valuation, adjustment or maintenance of the Index.

Although the Calculation Agent will obtain information concerning the Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty or undertaking (express or implied) is accepted by the Issuer, the
Calculation Agent or their affiliates as to the accuracy, completeness and timeliness of information concerning the Index.

5. Information about the Index

Information about the past and future performance of the Index and its volatility can be obtained at Bloomberg Page “CPTFEMU”.

Further details about the Index may also be viewed on the website of the Index Sponsor at http://epp.eurostat.ec.europa.eu/
